BIDS AND AWARDS COMMITTEE

Supplemental Bid Bulletin No. 1

17 March 2021

Procurement on Supply, Delivery, and Managed Services of 2,800 Registration Kits for the Philippine Identification System (Philsys)

This Bid Bulletin No. 1 modifies respective portions of the Bidding Documents, issued on 03 March 2021.

The changes to the Bidding Documents, as indicated in the succeeding pages, are being issued in compliance with Section 22.5 of the Revised 2016 Implementing Rules and Regulations of RA 9184. Under this section, the procuring entity is directed to issue an amendment at least seven (7) days before the deadline for submission of the bid.

Except as expressly amended by this Bid Bulletin, all other terms and conditions of the Bidding Documents issued on 03 March 2021 shall remain unchanged and shall remain in full force and effect in accordance with their terms.

For guidance and information of all concerned.

(Sgd.)
MINERVA ELOISA P. ESQUIVIAS
OIC Deputy National Statistician
BAC Chairperson

Procurement on Supply, Delivery, and Managed Services of 2,800 Registration Kits for the Philippine Identification System (Philsys)

BID BULLETIN NO. 1

Bid Bulletin No.	Reference	Amendments/Revisions
BB1 - 1	*Section I. ITB -* Submission of Bids: Request for an extension on the deadline of the submission and opening of bids	No extension. The deadline of submission and schedule of Opening of Bids are retained.
BB1 - 2	Section VI. Schedule of Requirements: Request for an extension from 90 CD to 120 CD.	Section VI. Schedule of Requirements: *"To be delivered within Ninety (90) calendar days from NTP."* is hereby revised as follows: *"The winning bidder shall deliver to PSA Provincial Offices 1745 kits within 90 calendar days after NTP and the remaining 1055 kits shall be delivered within 105 calendar days after NTP."* *Distribution for 2800 Registration Kits will be provided as Annex A.*
BB1 - 3	*Confirmation of the quantity of Registration Kits in Section VI. Schedule of Requirements*	Please refer to BB1 – 2 Annex A.
BB1 - 4	*Fingerprint (4+4+2) slap capture equipment* *Image Specification:* *ISO/IEC 19794-5:2011 B.1 AFISNormative*	The image specification under fingerprint 4+4+2) slap capture equipment is hereby revised as follows: *Image Specification:* *"ISO/IEC 19794-4:2011 B.1 AFISNormative"*
BB1 - 5	*Region VI - Calabarzon*	Region VI - Calabarzon is hereby amended as: Region IV - A Calabarzon
BB1 - 6	*TYPE C USB HUB Minimum of four (4) USB 3.0 and two (2) USB 2.0 ports*	The TYPE C USB HUB Power Supply is hereby revised as follows: *"The Power Supply is a detachable AC/DC power adapter.*

Bid Bulletin No.	Reference	Amendments/Revisions
		With Minimum Specification of: ● *Power Output: DC 2.1 A* ● *Power Source: AC Grid Source (110 V, 240 V)* ● *Output Current: 2.1 A* ● *Output Wattage: 10.5 W"*
BB1 - 7	Page 43 - I. Specifications of Registration Kits 3. HD Webcam - Request the Operating Temperature of 0 - 50 C to be removed as this is relevant to DSLR.	The requirement on operating temperature under HD Webcam is hereby removed.
BB1 - 8	Page 43 - I. Specifications of Registration Kits 3. HD Webcam - Request the EMC compliance - FCC Class A or equivalent to be removed as FCC Class A is relevant to DSLR, not Webcam	The technical specification for EMC Compliance is hereby removed under HD Webcam.
BB1 - 9	Page 46 - I. Specifications of Registration Kits 5. Fingerprint - Request the Preview of >3 FPS JPEG lossless to be updated to JPEG 2000 lossless	The Preview specification under Fingerprint (4+4+2) slap capture equipment is hereby revised as follows: "> 3 FPS JPEG 2000 lossless frames with NFIQ 2.0 score superimposed."
BB1 - 10	Page 46 - I. Specifications of Registration Kits 5. Fingerprint - Request the Connectivity with USB-IF to be removed as there was a similar typo mistake in 2019 specification.	The specification for the Connectivity under Fingerprint (4+4+2) slap capture equipment is hereby revised as follows: "USB 2.0 or higher."
BB1 - 11	Page 48 - I. Specifications of Registration Kits 6. Iris capturing equipment - Request the Preview of >3 FPS JPEG lossless to be updated to JPEG 2000 lossless.	The Preview specification under Iris capturing equipment is hereby revised as follows: "> 3 FPS JPEG 2000 lossless frames with quality score superimposed."
BB1 - 12	Page 50 - I. Specifications of Registration Kits	The specifications for Compartment Feature under Hard Luggage Case are

Bid Bulletin No.	Reference	Amendments/Revisions
	10. Hard Luggage Case -Request the adjustable partition system compartment feature to be removed as fitted cutting design will allow a more rugged and better protection	hereby revised as follows: "Compartment Feature: fitted design"
BB1 - 13	Page 51 - 7. INCIDENTAL SERVICES b. Support services for the provision of tools required for the assembly or maintenance of the Equipment. Within [4] hours from delivery of Equipment or within [24] hours days from the receipt of a request from the PSA. - Can we clarify the bidder's response for maintenance of the Equipment within [24] hours from the receipt of a request from the PSA? - Is it typo [24] hours days?	The first specification under the Measure column for row "b. Support services for the provision of tools required for the assembly or maintenance of the Equipment" is hereby revised as follows: "Within [4] hours from delivery of Equipment or within [24] hours or next available commercial flight to selected remote region/province from the receipt of a request from the PSA."
BB1 - 14	Section V. Special Conditions of Contract 2.2 Partial payment is not allowed.	For the Section V. Special Condition of Contract 2.2 is hereby revised as follows: "Payment schedule is as follows: <table><tr><td>Items</td><td>Schedule</td><td>Payment</td></tr><tr><td>Delivery of 1745 kits with working MDS</td><td>within 90 days after NTP</td><td>62% of contract price</td></tr><tr><td>Delivery of 1055 kits with working MDS</td><td>within 105 days after NTP</td><td>38% of contract price</td></tr></table>
BB1 – 15	I. Specifications of Registration Kits PSA require Ink tank for low cost running with additional 2 ink tank refills of 150 ml. Can PSA accept lesser than 150 ml of tank refills	The technical specification for printer under media used is hereby revised as follows: "Ink tank for low cost running with additional 2 in tank refills of 140 ml."

Bid Bulletin No.	Reference	Amendments/Revisions
	(black ink)?	
BB1 - 16	Section VI. Schedule of Requirements: Note: Inspection within 60 days at the supplier's site from receipt of Notice to Proceed.	Section VI. Schedule of Requirements: *"Note: Inspection within 60 days at the supplier's site from receipt of Notice to Proceed."* Is hereby revised as follows: *"Note: Inspection within 80 days at the supplier's site from receipt of Notice to Proceed."*

Q&A No.	Reference	Query	TWG Responses
Q&A - 1	Pg. 41 On Section VII-LAPTOP: 2x USB 3.0 1x USB 2.0 1 x USB Type C HDMI port to attach a second monitor	Can the requirement for the 1x USB 2.0 be removed or relaxed to optional?	The minimum specifications for the Port component of the Laptop are retained. However, the bidder may propose USB 3.0 instead of USB 2.0. The bidder may propose additional USB Ports.
Q&A - 2	Pg. 42 On Section VII - HD WEBCAM Capture Mode	Kindly confirm Capture mode requirements as these are all software enabled by Registration Software provided by PSA. This is not enabled by hardware.	Yes, the capture mode functionalities are enabled by MDS that will be provided by the winning bidder.
Q&A - 3	Pg. 42 HD WEBCAM Exception Image Specification - Full Frontal with FACE features, two palms next to the face, waist up photo. 6X4 mm	Exception Image Specification is software controlled via Registration Software provided by PSA and not hardware controlled?	Yes, exception images are controlled by the Registration Client Software. For details, please refer to: https://docs.mosip.io/platform/biometrics/mosip-device-service-specification
Q&A - 4	Pg. 42 HD WEBCAM Image quality - ICAO - Full frontal image, +/- 5 degrees rotation, 24-bit RGB, white background, 35 mm width, 45 mm height.	ICAO full frontal compliance is software controlled via Registration Software provided by PSA and not hardware controlled as well?	ICAO compliance is enabled by the SDK. For details, please refer to: https://docs.mosip.io/platform/biometrics/mosip-device-service-specification
Q&A - 5	Pg. 48 EXTENDED	To confirm, is it acceptable that we will propose a 23" monitor as dual display as it's higher	The minimum specification of extended portable colored monitor is retained.

Q&A No.	Reference	Query	TWG Responses
	PORTABLE COLORED MONITOR1 4 inches LED screen	than the minimum specs?	
Q&A - 6	Pg. 50 DEVICE SERVER The Device Server exposes the following external device APIs to manage devices: ●Device Registration API ●Device Deregistration API ● Retrieve Encryption Certificate API	These APIs will be provided by PSA?	Yes. The API structure will be provided by the PSA. The device provider must develop the MDS with the PhilSys API structure for connecting with the management server.
Q&A - 7	Pg. 50 DEVICE SERVER The device server and management server will be installed in the rack server. The rack servers shall be hosted in PSA Data Centers.	If Proponent will provide the hardware, the procuring entity will provide the rack space, electricity, LAN, power & cooling system?	Yes. The rack server space, electricity, LAN, power & cooling system will be provided by the PSA.

Q&A No.	Reference	Query	TWG Responses
Q&A - 8	Pg. 52 MANAGEMENT SERVER	Is it up to the proponent to recommend hardware server specs? The Management server will also be hosted by PhilSys? Who will be responsible for generating the device certificate	The minimum specifications for the hardware server are specified in pg. 51 Terms of Reference of the PBD. Yes, the management server will be hosted by PhilSys. The winning bidder shall be responsible for issuing trust certificates for its devices.
Q&A - 9	Pg. 58 Responsibilities of Supplier Installation and testing of MDS to registration kits at the supplier's site.	Will there be a separate MDS server needed for testing at supplier site?	There is no requirement for an MDS server. However, the supplier may use its own server for the testing of MDS on Registration Kits at the supplier's site.
Q&A - 10	Pg. 58 II SERVICE LEVEL AGREEMENT pg. 62 Software Warranty	To confirm that registration software to be installed is out of scope of this warranty? And PSA will provide an SLA to the supplier for registration software related incidents.	Yes, the PhilSys Registration Client Software is out of scope for the software warranty. The PSA will provide an SLA to the supplier for PhilSys Registration Software Client related incidents.
Q&A - 11	Pg. 56 II SERVICE LEVEL AGREEMENT Pg. 62 SERVICE LEVEL TARGETS 9.1. Service Level Reporting:	Is it acceptable to the procuring entity if reporting is via an online ticket system? Is it acceptable to the procuring entity if the issue reporting (ticketing system) is accessible 24/7 and response & resolution be between 8AM - 6PM within Proponent operational hours?	Yes. The online ticket system is acceptable at no cost to the PSA. Yes. It is acceptable to issue a reporting system between 8 AM – 6 PM response and resolution time at no cost to the PSA.
Q&A - 12	Pg. 58 DEPLOYMENT Validate the device providers/supplie	May we ask if PSA will provide a way how the devices (laptops / biometrics devices) will communicate to the management server at	it is the option of the winning bidder to conduct necessary testing with the management server within their premises prior to the deployment of registration kits to PSA Field

Q&A No.	Reference	Query	TWG Responses
	rs at the management server, and issue certificates to individual device	PSA Data Center? Let's say the devices are being setup at a staging center at bidder site, will Philsys provide a way for us to see the management server (network)?	Offices.
Q&A - 13	Pg. 62 8.2. Service Warranty: Supplier undertakes and warrants to provide the necessary services to address Incidents for a period of three (3) years from the date of delivery inclusive of all costs for repair, maintenance, replacement, and consumables.	What if the cause of the repair/ replacement is Users fault? Who will shoulder the pullout cost?	Warranty shall not cover damages due to the user's fault.
Q&A - 14	Pg.29 DEPLOYMENT Prioritization of regions	Is there a preferred prioritization?	Please refer to BB1 - 2.
Q&A - 15	Pg.29 DEPLOYMENT Availability of Philsys resources – Manpower to receive the hardware, electricity, tables and network	Will Philsys provide the necessary manpower to receive the hardware? Electricity? Tables and Network connectivity prior the commissioning /deployment of the hardware onsite? This will greatly save time. Will the schedule cover	Yes, the PSA will designate manpower to receive the delivery of hardware. The PSA will also provide the electricity, network connectivity, working tables, etc. prior to the commissioning /deployment of the hardware onsite. For delivery schedules, we may consider delivery on the

Q&A No.	Reference	Query	TWG Responses
		only Mon-Fri?	weekend if necessary.
Q&A - 16	Pg.41 LAPTOP Hybrid Technology: 512 GB SSD (M.2 PCIe) and 1 TB HDD	Can the requirement of 1TB be relaxed? Can we propose to increase the SSD to 1TB instead of proposing a hybrid 512GB SSD and ordinary 1TB HDD?	The requirement for storage for the laptop remains. This consists of: ● 512 GB SSD (M.2 PCIe); and ● 1 TB HDD
Q&A - 17	Pg.58 Supplier's Obligation d. Conduct of Training - training of PSA's personnel, at the Supplier's office, and/or on-site, in assembly, start-up, operation, maintenance, and/or repair by qualified personnel of the Supplier	Will this be conducted per batch subj. to the Supplier's discretion on schedule?	Yes, the training shall be conducted by batch. The winning bidder shall submit a training plan to be approved by the PSA.
Q&A - 18	Pg.58 Supplier's Obligation Classroom training per Region/Province 5 online trainings	What are the expected deliverables from this activity? Will the 5 online trainings cover the entire proj. duration or does it pertains to # of online trainings to be facilitated per Region/ Province?	There shall be a total of five (5) online training per region/province. The training shall be related to the operation, troubleshooting, and maintenance of components of registration kits;
Q&A - 19	Pg.58 Responsibilities of Supplier	Will Philsys provide a list of security protocols to apply on the reg kits e.g. disabled USB, BIOS Password etc?	Yes.
Q&A - 20	Pg.58 Responsibilities of Supplier	Who will manage the user accounts/password/privileges of the registration kits?	The technical team of PSA shall be responsible for the user accounts/ password/privileges of

Q&A No.	Reference	Query	TWG Responses
			hardware and software.
Q&A - 21	Pg.58 Responsibilities of Supplier	How will the registration software be provided?	The PSA shall provide an installer for PhilSys Registration Client Software to the winning bidder to enable testing of the MDS.
Q&A - 22	Pg.58 Responsibilities of Supplier	How long is the installation of the registration software?	The installation of PhilSys Registration Client Software is estimated to run for one (1) hour including onboarding and data gathering.
Q&A - 23	Pg.58 Responsibilities of Supplier	Is the registration software compatible with imaging strategies for faster deployment?	Yes. It can be done, but there still a need to extract TPM and attached devices to pair them up for onboarding.
Q&A - 24	Pg.58 Responsibilities of Supplier	Can you describe the MDS certification process? On how the biometrics are certified and how long does it take?	There is no certification process for MDS. The MDS is a list of specifications for the biometric devices to communicate with the Registration Client Software through API calls in which the bidder must develop.
Q&A - 25	Pg. 49 Printer	Is the "Printer" required to be inside the Hardcase Luggage?	Yes. The printer must be in the Hard luggage case.
Q&A - 26	Pg. 16 Submission of Bids	Submission of Bids Will a document bearing an electronic signature be allowed?	Yes. Pursuant to GPPB Resolution 09-2020, bidders may submit documents bearing the electronic signature.
Q&A - 27	Pg. 41 Technical Specifications	Is the battery pack not included in the requirements for the subject procurement?	Yes, the battery pack is not included in the terms of reference.
Q&A - 28	Pg. 29 Section VI - Schedule of Requirements	Section VI - Schedule of Requirements Can the kits be delivered on a weekend? Or only weekdays? Will PSA provide manpower to receive the	Yes. PSA will provide the list of officials/staff that will receive the kits. Please refer to Q&A - 16.

Q&A No.	Reference	Query	TWG Responses
		kits onsite?	
Q&A - 29		Can an email confirmation on the certification of contracts be allowed or considered in the event that the Procuring Entity is on lockdown?	Yes. As long as the email contains the confirmation on the satisfactory completion of the project as stated in the SLCC.
Q&A - 30	Pg. 29 Section VI - Schedule of Requirements	Inspection and Delivery of Registration Kits Will the kits be inspected again after delivery considering that it has been inspected at the site of the bidders (i.e testing for the application, SDKs)?	The kits will be tested again after delivery to ensure full integration and compliance to MDS.
Q&A – 31	Page 16 - 20. Post-Qualification	Please confirm that sample kits or demo are not required.	Demo Kits are not required.
Q&A - 32	Page 29 - Section VI. Schedule of Requirements	For planning purposes to deliver within 90 days, please confirm the expected date for NTP issuance from Post Qualification.	Based on the procurement timeline, the issuance of NTP is expected by the third week of May 2021.
Q&A – 33	Page 29 - Section VI. Schedule of Requirements	For items delivered that include working MDS and SDKs, does this include MOSIP Management Client & Server?	Yes.
Q&A – 34	Page 41 - I. Specifications of Registration Kits	1. Laptop - Request the screen size of 14-14.1 inches to be updated to 14-15.6 inches for more cost-effective options and wider procurement selections.	The technical specification for screen size of Laptop is retained.
Q&A – 35	Page 41 - I. Specifications of Registration Kits	1. Laptop - Battery of 6 hours of continuous usage during registration, please	Yes. The battery usage of a laptop for registration is up to 6 hours of continuous usage

Q&A No.	Reference	Query	TWG Responses
		confirm this is applicable to power the laptop only	without other devices attached to it.
Q&A – 36	Page 43 - I. Specifications of Registration Kits	3. HD Webcam - Request the minimum resolution of 110-degree view to be updated to 90-degree view as registration is conducted in a controlled environment. Wide angle also produce fish eye effects causing image distortion.	The technical specification for minimum resolution of HD Webcam is retained.
Q&A – 37	Page 48 - I. Specifications of Registration Kits	7. Extended Portable Colored Monitor - Request the screen size of 14 inches to be updated to 13-16 inches for more cost effective options and wider procurement selections.	The screen size of 14 inches for Extended Portable Colored Monitor is retained. Please refer to Q&A -5.
Q&A – 38	Page 52 - I. Specifications of Registration Kits	12. Device Server - Rack Server Specifications, please confirm the followings: i) All IT Server hardware are procured, supplied & installed by PSA?	The supplier shall procure and supply the rack server hardware. The supplier shall install the device server and management server in the rack server hardware. The Rack Server Hardware shall be hosted at the PSA Data Centers.
Q&A – 39	Page 52 - I. Specifications of Registration Kits	ii) Any server redundancy required in the deployment of Management Server? If so, Active/Active or Active/Passive?	The Management Server shall be deployed in Active/Passive configuration.
Q&A – 40	Page 52 - I. Specifications of Registration Kits	iii) Would the complete server dedicated (as mentioned in the spec) for the management server or a slice of the Server resource be available? (as there are Licenses of VMware and VSphere mentioned)?	The complete server would be dedicated for the Management Server and Device Server.

Q&A No.	Reference	Query	TWG Responses
Q&A – 41	Page 52 - I. Specifications of Registration Kits	12. Device Server - Rack Server Specifications, please confirm the followings on HSM: i) Are HSM(s) procured, supplied & installed by PSA?	Yes, PSA will provide access to HSM.
Q&A – 42	Page 52 - I. Specifications of Registration Kits	ii) What are HSM specifications? What is the HSM (make/model) required?	The PSA will provide HSM Specification to the winning bidder.
Q&A – 43	Page 52 - I. Specifications of Registration Kits	iii) Are HSMs configured in redundant mode (Active/Active or Active/Passive)?	HSMs are in Active/Active configuration.
Q&A – 44	Page 52 - I. Specifications of Registration Kits	iv) Any HSM Backup requirements?	Details will be disclosed to the winning bidder.
Q&A – 45	Page 43 - I. Specifications of Registration Kits	2. Type C USB Hub - please clarify: i) TOR require minimum 6 USB port (four (4) USB 3.0 and two (2) USB 2.0 ports), can PSA also accept minimum six (6) USB 3.0 since USB 3.0 is backwards compatible.	The minimum specifications for the number of Ports under Type C USB Hub components requires a minimum of four (4) USB 3.0 and two (2) USB 2.0 ports. However, the bidder may propose USB 3.0 instead of USB 2.0.
Q&A – 46	Page 43 - I. Specifications of Registration Kits	ii) TOR require "1 x Power adapter (5V / 2A)" is this the minimum requirement? i.e. Can PSA also accept 5V/4A.	The minimum requirement for a Power adapter is 5V / 2A. However, the supplier may propose better specifications. A 5V/4A adapter is acceptable.
Q&A – 47	Page 43 - I. Specifications of Registration Kits	iii) TOR require connection: USB Type C connection; can PSA also accept USB Type A ?	The minimum technical specification for Type C USB Hub Connection is retained.
Q&A – 48	Page 22 - Advance Payment and Terms of Payment	Please confirm the followings: 1) Whether PSA will provide down payment of 15%?	Please refer to BB1 - 14.
Q&A – 49	Page 22 -	2) what are the payment	Payment shall be made after
