

PHILIPPINE BIDDING DOCUMENTS

Procurement of Asset and Vulnerability Management for the Philippine Statistics Authority

Government of the Republic of the Philippines

PHILIPPINE STATISTICS AUTHORITY

Quezon City, Philippines

PUBLIC BIDDING NO. 2024–06

Sixth Edition

July 2020

Preface

These Philippine Bidding Documents (PBDs) for the procurement of Goods through Competitive Bidding have been prepared by the Government of the Philippines for use by any branch, constitutional commission or office, agency, department, bureau, office, or instrumentality of the Government of the Philippines, National Government Agencies, including Government-Owned and/or Controlled Corporations, Government Financing Institutions, State Universities and Colleges, and Local Government Unit. The procedures and practices presented in this document have been developed through broad experience, and are for mandatory use in projects that are financed in whole or in part by the Government of the Philippines or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184.

The Bidding Documents shall clearly and adequately define, among others: (i) the objectives, scope, and expected outputs and/or results of the proposed contract or Framework Agreement, as the case may be; (ii) the eligibility requirements of Bidders; (iii) the expected contract or Framework Agreement duration, the estimated quantity in the case of procurement of goods, delivery schedule and/or time frame; and (iv) the obligations, duties, and/or functions of the winning bidder.

Care should be taken to check the relevance of the provisions of the PBDs against the requirements of the specific Goods to be procured. If duplication of a subject is inevitable in other sections of the document prepared by the Procuring Entity, care must be exercised to avoid contradictions between clauses dealing with the same matter.

Moreover, each section is prepared with notes intended only as information for the Procuring Entity or the person drafting the Bidding Documents. They shall not be included in the final documents. The following general directions should be observed when using the documents:

- a. All the documents listed in the Table of Contents are normally required for the procurement of Goods. However, they should be adapted as necessary to the circumstances of the particular Procurement Project.
- b. Specific details, such as the “*name of the Procuring Entity*” and “*address for bid submission*,” should be furnished in the Instructions to Bidders, Bid Data Sheet, and Special Conditions of Contract. The final documents should contain neither blank spaces nor options.
- c. This Preface and the footnotes or notes in italics included in the Invitation to Bid, Bid Data Sheet, General Conditions of Contract, Special Conditions of Contract, Schedule of Requirements, and Specifications are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow.

- d. The cover should be modified as required to identify the Bidding Documents as to the Procurement Project, Project Identification Number, and Procuring Entity, in addition to the date of issue.
- e. Modifications for specific Procurement Project details should be provided in the Special Conditions of Contract as amendments to the Conditions of Contract. For easy completion, whenever reference has to be made to specific clauses in the Bid Data Sheet or Special Conditions of Contract, these terms shall be printed in bold typeface on Sections I (Instructions to Bidders) and III (General Conditions of Contract), respectively.
- f. For guidelines on the use of Bidding Forms and the procurement of Foreign-Assisted Projects, these will be covered by a separate issuance of the Government Procurement Policy Board.

Glossary of Acronyms, Terms, and Abbreviations

ABC – Approved Budget for the Contract.

BAC – Bids and Awards Committee.

Bid – A signed offer or proposal to undertake a contract submitted by a bidder in response to and in consonance with the requirements of the bidding documents. Also referred to as *Proposal* and *Tender*. (2016 revised IRR, Section 5[c])

Bidder – Refers to a contractor, manufacturer, supplier, distributor and/or consultant who submits a bid in response to the requirements of the Bidding Documents. (2016 revised IRR, Section 5[d])

Bidding Documents – The documents issued by the Procuring Entity as the bases for bids, furnishing all information necessary for a prospective bidder to prepare a bid for the Goods, Infrastructure Projects, and/or Consulting Services required by the Procuring Entity. (2016 revised IRR, Section 5[e])

BIR – Bureau of Internal Revenue.

BSP – Bangko Sentral ng Pilipinas.

Consulting Services – Refer to services for Infrastructure Projects and other types of projects or activities of the GOP requiring adequate external technical and professional expertise that are beyond the capability and/or capacity of the GOP to undertake such as, but not limited to: (i) advisory and review services; (ii) pre-investment or feasibility studies; (iii) design; (iv) construction supervision; (v) management and related services; and (vi) other technical services or special studies. (2016 revised IRR, Section 5[i])

CDA - Cooperative Development Authority.

Contract – Refers to the agreement entered into between the Procuring Entity and the Supplier or Manufacturer or Distributor or Service Provider for procurement of Goods and Services; Contractor for Procurement of Infrastructure Projects; or Consultant or Consulting Firm for Procurement of Consulting Services; as the case may be, as recorded in the Contract Form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.

CIF – Cost Insurance and Freight.

CIP – Carriage and Insurance Paid.

CPI – Consumer Price Index.

DDP – Refers to the quoted price of the Goods, which means “delivered duty paid.”

DTI – Department of Trade and Industry.

EXW – Ex works.

FCA – “Free Carrier” shipping point.

FOB – “Free on Board” shipping point.

Foreign-funded Procurement or Foreign-Assisted Project– Refers to procurement whose funding source is from a foreign government, foreign or international financing institution as specified in the Treaty or International or Executive Agreement. (2016 revised IRR, Section 5[b]).

Framework Agreement – Refers to a written agreement between a procuring entity and a supplier or service provider that identifies the terms and conditions, under which specific purchases, otherwise known as “Call-Offs,” are made for the duration of the agreement. It is in the nature of an option contract between the procuring entity and the bidder(s) granting the procuring entity the option to either place an order for any of the goods or services identified in the Framework Agreement List or not buy at all, within a minimum period of one (1) year to a maximum period of three (3) years. (GPPB Resolution No. 27-2019)

GFI – Government Financial Institution.

GOCC – Government-owned and/or –controlled corporation.

Goods – Refer to all items, supplies, materials and general support services, except Consulting Services and Infrastructure Projects, which may be needed in the transaction of public businesses or in the pursuit of any government undertaking, project or activity, whether in the nature of equipment, furniture, stationery, materials for construction, or personal property of any kind, including non-personal or contractual services such as the repair and maintenance of equipment and furniture, as well as trucking, hauling, janitorial, security, and related or analogous services, as well as procurement of materials and supplies provided by the Procuring Entity for such services. The term “related” or “analogous services” shall include, but is not limited to, lease or purchase of office space, media advertisements, health maintenance services, and other services essential to the operation of the Procuring Entity. (2016 revised IRR, Section 5[r])

GOP – Government of the Philippines.

GPPB – Government Procurement Policy Board.

INCOTERMS – International Commercial Terms.

Infrastructure Projects – Include the construction, improvement, rehabilitation, demolition, repair, restoration or maintenance of roads and bridges, railways, airports, seaports, communication facilities, civil works components of information technology projects, irrigation, flood control and drainage, water supply, sanitation, sewerage and solid waste management systems, shore protection, energy/power and electrification facilities, national

buildings, school buildings, hospital buildings, and other related construction projects of the government. Also referred to as *civil works or works*. (2016 revised IRR, Section 5[u])

LGUs – Local Government Units.

NFCC – Net Financial Contracting Capacity.

NGA – National Government Agency.

PhilGEPS - Philippine Government Electronic Procurement System.

Procurement Project – refers to a specific or identified procurement covering goods, infrastructure project or consulting services. A Procurement Project shall be described, detailed, and scheduled in the Project Procurement Management Plan prepared by the agency which shall be consolidated in the procuring entity's Annual Procurement Plan. (GPPB Circular No. 06-2019 dated 17 July 2019)

PSA – Philippine Statistics Authority.

SEC – Securities and Exchange Commission.

SLCC – Single Largest Completed Contract.

Supplier – refers to a citizen, or any corporate body or commercial company duly organized and registered under the laws where it is established, habitually established in business, and engaged in the manufacture or sale of the merchandise or performance of the general services covered by his bid. (Item 3.8 of GPPB Resolution No. 13-2019, dated 23 May 2019). Supplier as used in these Bidding Documents may likewise refer to a distributor, manufacturer, contractor, or consultant.

UN – United Nations.

Section I. Invitation to Bid

Notes on the Invitation to Bid

The Invitation to Bid (IB) provides information that enables potential Bidders to decide whether to participate in the procurement at hand. The IB shall be posted in accordance with Section 21.2 of the 2016 revised IRR of RA No. 9184.

Apart from the essential items listed in the Bidding Documents, the IB should also indicate the following:

- a. The date of availability of the Bidding Documents, which shall be from the time the IB is first advertised/posted until the deadline for the submission and receipt of bids;
- b. The place where the Bidding Documents may be acquired or the website where it may be downloaded;
- c. The deadline for the submission and receipt of bids; and
- d. Any important bid evaluation criteria (*e.g.*, the application of a margin of preference in bid evaluation).

The IB should be incorporated in the Bidding Documents. The information contained in the IB must conform to the Bidding Documents and in particular to the relevant information in the Bid Data Sheet.

INVITATION TO BID FOR THE PROCUREMENT OF ASSET AND VULNERABILITY MANAGEMENT FOR THE PHILIPPINE STATISTICS AUTHORITY

1. The **Philippine Statistics Authority**, through the **2024 General Appropriations Act** intends to apply the sum of **Three Million Eight Hundred Thousand Pesos (PhP 3,800,000.00)** being the ABC to payments under the contract for Procurement of Asset and Vulnerability Management for the Philippine Statistics Authority. Bids received in excess of the ABC shall be automatically rejected at bid opening.
2. The **Philippine Statistics Authority** now invites bids for the above Procurement Project. Delivery of the Goods is required **Thirty (30) calendar days upon receipt of Notice to Proceed**. Bidders should have completed, **within five (5) years from the date of submission and receipt of bids**, a contract similar to the Project. The description of an eligible bidder is contained in the Bidding Documents, particularly, in Section II (Instructions to Bidders).
3. Bidding will be conducted through open competitive bidding procedures using a non-discretionary “*pass/fail*” criterion as specified in the 2016 revised Implementing Rules and Regulations (IRR) of Republic Act (RA) No. 9184.

Bidding is open to all interested bidders, whether local or foreign, subject to the conditions for eligibility provided in the 2016 revised IRR of RA No. 9184.
4. Prospective Bidders may obtain further information from the Philippine Statistics Authority and inspect the Bidding Documents at the address given below from **Mondays to Fridays, 8:00 A.M. to 05:00 P.M.**
5. A complete set of Bidding Documents may be acquired by interested Bidders on **27 March 2024** from the given address and website(s) below and upon payment of the applicable fee for the Bidding Documents, pursuant to the latest Guidelines issued by the GPPB, in the amount of **PhP 5,000.00**. The Procuring Entity shall allow the bidder to present its proof of payment for the fees to be presented in person or through electronic means.
6. The Philippine Statistics Authority will hold a Pre-Bid Conference¹ on **08 April 2024, 02:00 P.M., through video conferencing or webcasting via Google Meet**, which shall be open to prospective bidders.
7. Bids must be duly received by the BAC Secretariat through manual submission at the office address indicated below on or before **22 April 2024, 08:00 A.M.** Late bids shall not be accepted.

¹ May be deleted in case the ABC is less than One Million Pesos (PhP1,000,000) where the Procuring Entity may not hold a Pre-Bid Conference.

8. All Bids must be accompanied by a bid security in any of the acceptable forms and in the amount stated in **ITB** Clause 14.
9. Bid opening shall be on **22 April 2024, 10:00 A.M. at the given address below and/or via Google Meet**, meeting link will be sent to the respective email addresses given by the interested bidders. Bids will be opened in the presence of the bidders' representatives who choose to attend the activity.
10. The Philippine Statistics Authority reserves the right to reject any and all bids, declare a failure of bidding, or not award the contract at any time prior to contract award in accordance with Sections 35.6 and 41 of the 2016 revised IRR of RA No. 9184, without thereby incurring any liability to the affected bidder or bidders.

Section II. Instructions to Bidders

Notes on the Instructions to Bidders

This Section on the Instruction to Bidders (ITB) provides the information necessary for bidders to prepare responsive bids, in accordance with the requirements of the Procuring Entity. It also provides information on bid submission, eligibility check, opening and evaluation of bids, post-qualification, and on the award of contract.

1. Scope of Bid

The Procuring Entity, Philippine Statistics Authority wishes to receive Bids for the **Procurement of Asset and Vulnerability Management for the Philippine Statistics Authority** with identification number **PB 2024-06**

The Procurement Project (referred to herein as “Project”) is composed of 1 lot, the details of which are described in Section VII (Technical Specifications).

2. Funding Information

2.1. The GOP through the source of funding as indicated below for year **2024** in the amount of **Three Million Eight Hundred Thousand Pesos (PhP 3,800,000.00)**.

2.2. The source of funding is the 2024 General Appropriations Act.

3. Bidding Requirements

The Bidding for the Project shall be governed by all the provisions of RA No. 9184 and its 2016 revised IRR, including its Generic Procurement Manuals and associated policies, rules, and regulations as the primary source thereof, while the herein clauses shall serve as the secondary source thereof.

Any amendments made to the IRR and other GPPB issuances shall be applicable only to the ongoing posting, advertisement, or **IB** by the BAC through the issuance of a supplemental or bid bulletin.

The Bidder, by the act of submitting its Bid, shall be deemed to have verified and accepted the general requirements of this Project, including other factors that may affect the cost, duration and execution or implementation of the contract, project, or work and examine all instructions, forms, terms, and project requirements in the Bidding Documents.

4. Corrupt, Fraudulent, Collusive, and Coercive Practices

The Procuring Entity, as well as the Bidders and Suppliers, shall observe the highest standard of ethics during the procurement and execution of the contract. They or through an agent shall not engage in corrupt, fraudulent, collusive, coercive, and obstructive practices defined under Annex “I” of the 2016 revised IRR of RA No. 9184 or other integrity violations in competing for the Project.

5. Eligible Bidders

5.1. Only Bids of Bidders found to be legally, technically, and financially capable will be evaluated.

- 5.2. Foreign ownership exceeding those allowed under the rules may participate in this Project.
- 5.3. Pursuant to Section 23.4.1.3 of the 2016 revised IRR of RA No.9184, the Bidder shall have an SLCC that is at least one (1) contract similar to the Project the value of which, adjusted to current prices using the PSA's CPI, must be at least equivalent to:
 - a. For the procurement of Non-expendable Supplies and Services: The Bidder must have completed a single contract that is similar to this Project, equivalent to at least fifty percent (50%) of the ABC.
- 5.4. The Bidders shall comply with the eligibility criteria under Section 23.4.1 of the 2016 IRR of RA No. 9184.

6. Origin of Goods

There is no restriction on the origin of goods other than those prohibited by a decision of the UN Security Council taken under Chapter VII of the Charter of the UN, subject to Domestic Preference requirements under **ITB** Clause 18.

7. Subcontracts

- 7.1. The Bidder may subcontract portions of the Project to the extent allowed by the Procuring Entity as stated herein, but in no case more than twenty percent (20%) of the Project.

The Procuring Entity has prescribed that Subcontracting is not allowed.

8. Pre-Bid Conference

The Procuring Entity will hold a pre-bid conference for this Project on the specified date and time and either at its physical address and/or through videoconferencing/webcasting as indicated in paragraph 6 of the **IB**.

9. Clarification and Amendment of Bidding Documents

Prospective bidders may request for clarification on and/or interpretation of any part of the Bidding Documents. Such requests must be in writing and received by the Procuring Entity, either at its given address or through electronic mail indicated in the **IB**, at least ten (10) calendar days before the deadline set for the submission and receipt of Bids.

10. Documents comprising the Bid: Eligibility and Technical Components

- 10.1. The first envelope shall contain the eligibility and technical documents of the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.

- 10.2. The Bidder's SLCC as indicated in **ITB** Clause 5.3 should have been completed within Five (5) years prior to the deadline for the submission and receipt of bids.
- 10.3. If the eligibility requirements or statements, the bids, and all other documents for submission to the BAC are in foreign language other than English, it must be accompanied by a translation in English, which shall be authenticated by the appropriate Philippine foreign service establishment, post, or the equivalent office having jurisdiction over the foreign bidder's affairs in the Philippines. Similar to the required authentication above, for Contracting Parties to the Apostille Convention, only the translated documents shall be authenticated through an apostille pursuant to GPPB Resolution No. 13-2019 dated 23 May 2019. The English translation shall govern, for purposes of interpretation of the bid.

11. Documents comprising the Bid: Financial Component

- 11.1. The second bid envelope shall contain the financial documents for the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.
- 11.2. If the Bidder claims preference as a Domestic Bidder or Domestic Entity, a certification issued by DTI shall be provided by the Bidder in accordance with Section 43.1.3 of the 2016 revised IRR of RA No. 9184.
- 11.3. Any bid exceeding the ABC indicated in paragraph 1 of the **IB** shall not be accepted.
- 11.4. For Foreign-funded Procurement, a ceiling may be applied to bid prices provided the conditions are met under Section 31.2 of the 2016 revised IRR of RA No. 9184.

12. Bid Prices

- 12.1. Prices indicated on the Price Schedule shall be entered separately in the following manner:
 - a. For Goods offered from within the Procuring Entity's country:
 - i. The price of the Goods quoted EXW (ex-works, ex-factory, ex-warehouse, ex-showroom, or off-the-shelf, as applicable);
 - ii. The cost of all customs duties and sales and other taxes already paid or payable;
 - iii. The cost of transportation, insurance, and other costs incidental to delivery of the Goods to their final destination; and
 - iv. The price of other (incidental) services, if any, listed in the **BDS**.
 - b. For Goods offered from abroad:

- i. Unless otherwise stated in the **BDS**, the price of the Goods shall be quoted delivered duty paid (DDP) with the place of destination in the Philippines as specified in the **BDS**. In quoting the price, the Bidder shall be free to use transportation through carriers registered in any eligible country. Similarly, the Bidder may obtain insurance services from any eligible source country.
- ii. The price of other (incidental) services, if any, as listed in the **BDS**.

13. Bid and Payment Currencies

13.1. For Goods that the Bidder will supply from outside the Philippines, the bid prices may be quoted in the local currency or tradeable currency accepted by the BSP at the discretion of the Bidder. However, for purposes of bid evaluation, Bids denominated in foreign currencies, shall be converted to Philippine currency based on the exchange rate as published in the BSP reference rate bulletin on the day of the bid opening.

13.2. Payment of the contract price shall be made in Philippine Pesos.

14. Bid Security

14.1. The Bidder shall submit a Bid Securing Declaration² or any form of Bid Security in the amount indicated in the **BDS**, which shall be not less than the percentage of the ABC in accordance with the schedule in the **BDS**.

14.2. The Bid and bid security shall be valid until **One Hundred Twenty (120) Days**. Any Bid not accompanied by an acceptable bid security shall be rejected by the Procuring Entity as non-responsive.

15. Sealing and Marking of Bids

Each Bidder shall submit one copy of the first and second components of its Bid.

The Procuring Entity may request additional hard copies and/or electronic copies of the Bid. However, failure of the Bidders to comply with the said request shall not be a ground for disqualification.

If the Procuring Entity allows the submission of bids through online submission or any other electronic means, the Bidder shall submit an electronic copy of its Bid, which must be digitally signed. An electronic copy that cannot be opened or is corrupted shall be considered non-responsive and, thus, automatically disqualified.

16. Deadline for Submission of Bids

16.1. The Bidders shall submit on the specified date and time and either at its physical address or through online submission as indicated in paragraph 7 of the **IB**.

² In the case of Framework Agreement, the undertaking shall refer to entering into contract with the Procuring Entity and furnishing of the performance security or the performance securing declaration within ten (10) calendar days from receipt of Notice to Execute Framework Agreement.

17. Opening and Preliminary Examination of Bids

- 17.1. The BAC shall open the Bids in public at the time, on the date, and at the place specified in paragraph 9 of the **IB**. The Bidders' representatives who are present shall sign a register evidencing their attendance. In case videoconferencing, webcasting or other similar technologies will be used, attendance of participants shall likewise be recorded by the BAC Secretariat.

In case the Bids cannot be opened as scheduled due to justifiable reasons, the rescheduling requirements under Section 29 of the 2016 revised IRR of RA No. 9184 shall prevail.

- 17.2. The preliminary examination of bids shall be governed by Section 30 of the 2016 revised IRR of RA No. 9184.

18. Domestic Preference

- 18.1. The Procuring Entity will grant a margin of preference for the purpose of comparison of Bids in accordance with Section 43.1.2 of the 2016 revised IRR of RA No. 9184.

19. Detailed Evaluation and Comparison of Bids

- 19.1. The Procuring Entity's BAC shall immediately conduct a detailed evaluation of all Bids rated "*passed*," using non-discretionary pass/fail criteria. The BAC shall consider the conditions in the evaluation of Bids under Section 32.2 of the 2016 revised IRR of RA No. 9184.
- 19.2. If the Project allows partial bids, bidders may submit a proposal on any of the lots or items, and evaluation will be undertaken on a per lot or item basis, as the case maybe. In this case, the Bid Security as required by **ITB** Clause 14 shall be submitted for each lot or item separately.
- 19.3. The descriptions of the lots or items shall be indicated in **Section VII (Technical Specifications)**, although the ABCs of these lots or items are indicated in the **BDS** for purposes of the NFCC computation pursuant to Section 23.4.2.6 of the 2016 revised IRR of RA No. 9184. The NFCC must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder.
- 19.4. The Project shall be awarded as One Project having several items that shall be awarded as one contract.
- 19.5. Except for bidders submitting a committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation, all Bids must include the NFCC computation pursuant to Section 23.4.1.4 of the 2016 revised IRR of RA No. 9184, which must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder. For bidders submitting the committed Line of Credit, it must be at least equal to ten percent (10%) of the ABCs for all the lots or items participated in by the prospective Bidder.

20. Post-Qualification

- 20.1. Within a non-extendible period of five (5) calendar days from receipt by the Bidder of the notice from the BAC that it submitted the Lowest Calculated Bid, the Bidder shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (eFPS) and other appropriate licenses and permits required by law and stated in the **BDS**.

21. Signing of the Contract

- 21.1. The documents required in Section 37.2 of the 2016 revised IRR of RA No. 9184 shall form part of the Contract. Additional Contract documents are indicated in the **BDS**.

Section III. Bid Data Sheet

Notes on the Bid Data Sheet

The Bid Data Sheet (BDS) consists of provisions that supplement, amend, or specify in detail, information, or requirements included in the ITB found in Section II, which are specific to each procurement.

This Section is intended to assist the Procuring Entity in providing the specific information in relation to corresponding clauses in the ITB and has to be prepared for each specific procurement.

The Procuring Entity should specify in the BDS information and requirements specific to the circumstances of the Procuring Entity, the processing of the procurement, and the bid evaluation criteria that will apply to the Bids. In preparing the BDS, the following aspects should be checked:

- a. Information that specifies and complements the provisions of the ITB must be incorporated.
- b. Amendments and/or supplements, if any, to provisions of the ITB as necessitated by the circumstances of the specific procurement, must also be incorporated.

Bid Data Sheet

ITB Clause	
5.3	<p>For this purpose, contracts similar to the Project shall be:</p> <ul style="list-style-type: none"> a. Similar contracts shall refer to contracts involving Installation of Various ICT Software Subscription. b. completed within five (5) years prior to the deadline for the submission and receipt of bids.
7.1	Subcontracting is not allowed.
12	The price of the Goods shall be quoted DDP Philippines or the applicable International Commercial Terms (INCOTERMS) for this Project.
14.1	<p>The bid security shall be in the form of a Bid Securing Declaration, or any of the following forms and amounts:</p> <ul style="list-style-type: none"> a. The amount of not less than <u>PhP 76,000.00</u>, if bid security is in cash, cashier's/manager's check, bank draft/guarantee or irrevocable letter of credit; or b. The amount of not less than <u>PhP 190,000.00</u> if bid security is in Surety Bond.
19.3	The Project shall be awarded as One Project having several items that shall be awarded as one contract.
20.2	No Further instructions.
21.2	No Further instructions.

Section IV. General Conditions of Contract

Notes on the General Conditions of Contract

The General Conditions of Contract (GCC) in this Section, read in conjunction with the Special Conditions of Contract in Section V and other documents listed therein, should be a complete document expressing all the rights and obligations of the parties.

Matters governing performance of the Supplier, payments under the contract, or matters affecting the risks, rights, and obligations of the parties under the contract are included in the GCC and Special Conditions of Contract.

Any complementary information which may be needed, shall be introduced only through the Special Conditions of Contract.

1. Scope of Contract

This Contract shall include all such items, although not specifically mentioned, that can be reasonably inferred as being required for its completion as if such items were expressly mentioned herein. All the provisions of RA No. 9184 and its 2016 revised IRR, including the Generic Procurement Manual, and associated issuances, constitute the primary source for the terms and conditions of the Contract, and thus, applicable in contract implementation. Herein clauses shall serve as the secondary source for the terms and conditions of the Contract.

This is without prejudice to Sections 74.1 and 74.2 of the 2016 revised IRR of RA No. 9184 allowing the GPPB to amend the IRR, which shall be applied to all procurement activities, the advertisement, posting, or invitation of which were issued after the effectivity of the said amendment.

Additional requirements for the completion of this Contract shall be provided in the **Special Conditions of Contract (SCC)**.

2. Advance Payment and Terms of Payment

2.1. Advance payment of the contract amount is provided under Annex “D” of the revised 2016 IRR of RA No. 9184.

2.2. The Procuring Entity is allowed to determine the terms of payment on the partial or staggered delivery of the Goods procured, provided such partial payment shall correspond to the value of the goods delivered and accepted in accordance with prevailing accounting and auditing rules and regulations. The terms of payment are indicated in the **SCC**.

3. Performance Security

Within ten (10) calendar days from receipt of the Notice of Award by the Bidder from the Procuring Entity but in no case later than the signing of the Contract by both parties, the successful Bidder shall furnish the performance security in any of the forms prescribed in Section 39 of the 2016 revised IRR of RA No. 9184.

4. Inspection and Tests

The Procuring Entity or its representative shall have the right to inspect and/or to test the Goods to confirm their conformity to the Project specifications at no extra cost to the Procuring Entity in accordance with the Generic Procurement Manual. In addition to tests in the **SCC, Section VII (Technical Specifications)** shall specify what inspections and/or tests the Procuring Entity requires, and where they are to be conducted. The Procuring Entity shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.

All reasonable facilities and assistance for the inspection and testing of Goods, including access to drawings and production data, shall be provided by the Supplier to the authorized inspectors at no charge to the Procuring Entity.

5. Warranty

- 5.1 In order to assure that manufacturing defects shall be corrected by the Supplier, a warranty shall be required from the Supplier as provided under Section 62.1 of the 2016 revised IRR of RA No. 9184.
- 5.2 The Procuring Entity shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall, repair or replace the defective Goods or parts thereof without cost to the Procuring Entity, pursuant to the Generic Procurement Manual.

6. Liability of the Supplier

The Supplier's liability under this Contract shall be as provided by the laws of the Republic of the Philippines.

If the Supplier is a joint venture, all partners to the joint venture shall be jointly and severally liable to the Procuring Entity.

Section V. Special Conditions of Contract

Notes on the Special Conditions of Contract

Similar to the BDS, the clauses in this Section are intended to assist the Procuring Entity in providing contract-specific information in relation to corresponding clauses in the GCC found in Section IV.

The Special Conditions of Contract (SCC) complement the GCC, specifying contractual requirements linked to the special circumstances of the Procuring Entity, the Procuring Entity's country, the sector, and the Goods purchased. In preparing this Section, the following aspects should be checked:

- a. Information that complements provisions of the GCC must be incorporated.
- b. Amendments and/or supplements to provisions of the GCC as necessitated by the circumstances of the specific purchase, must also be incorporated.

However, no special condition which defeats or negates the general intent and purpose of the provisions of the GCC should be incorporated herein.

Special Conditions of Contract

GCC Clause																	
1	<p>Delivery and Documents –</p> <p>For purposes of the Contract, “EXW,” “FOB,” “FCA,” “CIF,” “CIP,” “DDP” and other trade terms used to describe the obligations of the parties shall have the meanings assigned to them by the current edition of INCOTERMS published by the International Chamber of Commerce, Paris. The Delivery terms of this Contract shall be as follows:</p> <p>The delivery terms applicable to this Contract are sent to the following email addresses:</p> <table border="1" style="width: 100%; border-collapse: collapse; margin: 10px 0;"> <thead> <tr> <th style="width: 25%;">Name</th> <th style="width: 25%;">Designation</th> <th style="width: 25%;">Office</th> <th style="width: 25%;">Email Address</th> </tr> </thead> <tbody> <tr> <td>Fred S. Sollesta</td> <td>Officer-in-Charge, Deputy National Statistician</td> <td>PhilSys Registry Office</td> <td>f.sollesta@psa.gov.ph</td> </tr> <tr> <td>Rene C. Mendoza</td> <td>Assistant National Statistician</td> <td>Systems and Information Security Service</td> <td>r.mendoza@psa.gov.ph</td> </tr> <tr> <td>Angelo P. Asignacion</td> <td>Information Technology Officer III</td> <td>Information and Cybersecurity Division</td> <td>a.asignacion@psa.gov.ph</td> </tr> </tbody> </table> <p>Risk and title will pass from the Supplier to the Procuring Entity upon receipt and final acceptance of the Goods at their final destination.”</p> <p>Delivery of the Goods shall be made by the Supplier in accordance with the terms specified in Section VI (Schedule of Requirements).</p> <p>Incidental Services –</p> <p>The Supplier is required to provide all of the following services, including additional services, if any, specified in Section VI. Schedule of Requirements:</p> <ol style="list-style-type: none"> a. performance or supervision of on-site assembly and/or start-up of the supplied Goods; b. furnishing of tools required for assembly and/or maintenance of the supplied Goods; c. furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied Goods; d. performance, supervision, or maintenance and/or repair of the supplied Goods, for a period of time agreed by the parties, provided that this service shall not relieve the Supplier of any warranty obligations under this Contract; and 	Name	Designation	Office	Email Address	Fred S. Sollesta	Officer-in-Charge, Deputy National Statistician	PhilSys Registry Office	f.sollesta@psa.gov.ph	Rene C. Mendoza	Assistant National Statistician	Systems and Information Security Service	r.mendoza@psa.gov.ph	Angelo P. Asignacion	Information Technology Officer III	Information and Cybersecurity Division	a.asignacion@psa.gov.ph
Name	Designation	Office	Email Address														
Fred S. Sollesta	Officer-in-Charge, Deputy National Statistician	PhilSys Registry Office	f.sollesta@psa.gov.ph														
Rene C. Mendoza	Assistant National Statistician	Systems and Information Security Service	r.mendoza@psa.gov.ph														
Angelo P. Asignacion	Information Technology Officer III	Information and Cybersecurity Division	a.asignacion@psa.gov.ph														

	<p>e. training of the Procuring Entity’s personnel, at the Supplier’s plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied Goods.</p> <p>The Contract price for the Goods shall include the prices charged by the Supplier for incidental services and shall not exceed the prevailing rates charged to other parties by the Supplier for similar services.</p> <p>Intellectual Property Rights The Supplier shall indemnify the Procuring Entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the Goods or any part thereof.</p>
	<p>Regular and Recurring Services – The contract for regular and recurring services shall be subject to a renewal whereby the performance evaluation of the service provider shall be conducted in accordance with Section VII. Technical specifications.</p>
2.2	No Further Instructions.
4	The inspection and test that will be conducted is the “Visibility of agent in the Dashboard of the System.”

Section VI. Schedule of Requirements

The delivery schedule expressed as weeks/months stipulates hereafter a delivery date which is the date of delivery to the project site.

Description	Quantity	Total	Delivered, Weeks/Months
Supply, Delivery, and Installation of Vulnerability Management for 500 assets with: <ul style="list-style-type: none"> - Asset discovery, inventory, and categorization - Malware scanning and detection - Vulnerability management 	1 Lot	PhP 3,800,000.00	Supply, delivery, installation, configuration/integration to the existing platform, commissioning, and all works should be completed within 30 days upon receipt of Notice to Proceed (NTP)
Supply, Delivery, and Installation of Patch Management for 500 assets with: <ul style="list-style-type: none"> - Patch operating systems (OS) and third-party applications of remote devices - Cloud-based patch management solution 			
Supply, Delivery, and Installation of Web App Scanning (10 web apps), includes the following: <ul style="list-style-type: none"> - Authenticated and Non-authenticated Scanning 			
Professional Services, Maintenance and Local Support for one (1) year, with the following: <ul style="list-style-type: none"> - Implementation (Installation, Setup, Configuration, and Knowledge Transfer of the tool) - Maintenance and Local Support through Phone and Email 			

Section VII. Technical Specifications

Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials, and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words “*or at least equivalent.*” References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

In case of Renewal of Regular and Recurring Services, the Procuring Entity must indicate here the technical requirements for the service provider, which must include the set criteria in the conduct of its performance evaluation.

Technical Specifications

A. Asset and Vulnerability Management

No.	Specification	Statement of Compliance
1	Quantity: Five Hundred (500) units	
2	The bidder must provide annual license subscriptions of cloud-based vulnerability management solutions	
3	The solution must have a useful life of one (1) year	
4	Solution must be deployable to physical or virtual appliances of lightweight agents, centrally managed and self-updating	
5	The platform should be accessible directly in the browser with no plugins necessary	
6	Solution must identify which OS, ports, services, and certificates are on each device on your network	
7	Solution must be capable to get consolidated reports of which hosts need which patches	
8	Solution must address mandates like National Institute of Standard and Technology (NIST) 800-53 that require continuous monitoring for regulatory compliance	
9	Solution must dynamically tag assets to automatically categorize hosts by attributes like a network address, open ports, OS, software installed, and vulnerabilities found	
10	Solution must be able to track vulnerabilities over time as they appear, are fixed, or reappear	
11	Solution must automatically correlate vulnerabilities and patches for specific hosts, decreasing the remediation response time	
12	Solution must allow searching for Common Vulnerabilities and Exposure (CVE) and identification of the latest superseding patches	
13	Solution must have remediation workflow management	
14	Solution must have interactive and template-based reporting	
15	Solution must provide visual presentation of network with graphical host map	
16	Solution must assess digital certificates, both internal and external, and TLS configurations for certificate issues and vulnerabilities	
17	Solution must also detect critical misconfigurations per CIS benchmarks in real time	
18	Solution must support managing cloud agents, activation keys and configuration profiles for agents	
19	Solution must have Six Sigma accuracy and be able validate and provide evidence to a vulnerability.	
20	Solution must automatically adjust its scans intensity according to how devices react, to avoid overloading them with scan traffic	
21	Solution must have multiple ways to deploy sensors to detect and discover vulnerabilities. Agent or Agentless based approach should be available regardless which environment the scans are conducted.	
22	Agent based approach should be light weight, real time, and continuously evaluate the security and compliance posture of endpoint. Impact of agent to endpoint should be minimally with little to no CPU utilization.	

23	Solution should be able to scan for SANS Top 20 Critical Security Controls	
24	Solution must be able to identify the highest risk assets and vulnerabilities. It should comprehensively quantify risk across the attack surface including vulnerabilities, misconfigurations, and digital certificates.	
25	Solution must be capable of leveraging comprehensive threat and exploit intelligence to automatically assess the true risk based on multiple factors like exploit code maturity, active exploitation in the wild, criticality of an asset, and its location.	
26	Solution must provide a risk score to quantify risks, track risk reduction over time, and assess the effectiveness of our cybersecurity programs	
27	Solution must automatically correlate vulnerabilities and patches for specific hosts to decrease the remediation response time.	
28	Solution must have integrated patch management add-on to remediate vulnerability risk by applying patches, workarounds, or configuration fix.	
29	Solution must allow searching for CVEs and identify the latest superseding patches.	
30	Schedules must be able to auto start, auto pause, auto resume and auto cancel to suit a maintenance window if required	

B. Web Application Scanning

No.	Specification	Statement of Compliance
1	Quantity: Ten (10) units	
2	The solution must have a useful life of one (1) year	
3	The solution should let the users define the web apps from the central cloud console	
4	The solution must be capable to scan web applications with a starting URL or/and port	
5	The solution should let the users tag multiple websites dynamically	
6	The solution can scan external web apps from the same platform	
7	Ability to automatically crawl, discover and define scope for web application scanning	
8	The solution should allow user to exclude/include some parts of the web app for crawling	
9	The solution should be able to crawl through API parameters	
10	The solution must conduct authenticated and unauthenticated scan	
11	The solution must support Selenium crawl and authentication scripts	
12	The solution should be able to support the common authentication schemes e.g., Multi-Factor Authentication (MFA)	
13	The solution should be able to allow the users to do brute-forcing on the web app	
14	Scans should be able to identify minimally vulnerabilities from the OWASP TOP 10 list.	
15	Scans should identify data disclosure vulnerabilities, such as leakage of personally identifiable information (PII).	

16	Scans should identify Flow control vulnerabilities, such as forceful browsing and cross-site request forgery (CSRF).	
17	Scans should identify Data injection and manipulation, such as SQL injection, buffer overflow, cross-site scripting (XSS) or command injection.	
18	Solution must also assist in detecting malware that might have been embedded on the website preventing customers from exposing malware infections to their customer to ensure brand reputation.	
19	The solution shall have a dashboard prioritizing remediation and focusing on the most critical flaws. It shall display scan activity, infected pages, and malware infection trends where users can initiate actions directly from the GUI.	
20	The tool must be able to intercept all the traffic between the browser and the server to allow users to thoroughly analyze the communication and identify potential security vulnerabilities.	
21	The tool must provide a comprehensive set of features for aggregating, storing, and analyzing targeted data in a site map, along with filtering and annotation functions.	
22	The tool must provide functionalities to assist in finding hidden target functionality, including advanced discovery functions for identifying "invisible" content.	
23	The tool must include features that can be used to detect and confirm clickjacking vulnerabilities in potentially vulnerable web pages.	
24	The tool must work with Web Sockets messages and get their specific history – allowing the user to view and modify them	
25	The tool should break https effectively. It should have a proxy even secure HTTPS traffic and installing a unique CA certificate must remove associated browser security warnings	
26	The tool must have a dedicated client to trigger external interactions to identify and verify out-of-band vulnerabilities in a target application effectively.	
27	The tool must be able to provide an integrated environment where users can manage both HTTP and WebSocket testing within the same window.	
28	The tool must offer features that can help determine the size of a target application and automatically enumerate static and dynamic URLs and parameters.	
29	The tool must have the capability to test for DOM-based Cross-Site Scripting (XSS) vulnerabilities	
30	Users could create a proof-of-concept HTML code for CSRF attacks based on a selected request.	
31	The tool has a feature that allows scanning of API to discover potential vulnerabilities.	
32	The tool provides the capability for authenticated scanning for privileged areas of target applications that require authentication, including those using complex login mechanisms such as Single Sign-On (SSO).	
33	The tool could provide features that can be utilized to assess the quality of randomness in tokens or other data items that are intended to be unpredictable	

C. Patch Management

No.	Specification	Statement of Compliance
1	Ability to correlate vulnerability data with associated patches.	
2	Ability to perform OS patching for Windows, Red Hat, CentOS, Debian, Mac etc.	
3	Ability to perform 3rd-party patching for applications, such as Google Chrome, Adobe Reader, etc.	
4	Ability to execute pre- and post-script action for added patch control.	
5	Ability to suppress reboot after patch installation.	
6	Ability to prompt for user confirmation prior to patch deployment.	
7	Ability to automate patches for low-impact applications (e.g., Internet Browsers).	
8	Ability to show historic report for applications that has vulnerabilities associated.	
9	Ability to fix vulnerabilities before they are detected to proactively patch assets	
10	Ability to prioritize patching based on empirical data detected in customer's environment over the last 2 years	
11	Ability to locate who is responsible for which vulnerabilities and patching of it	
12	Ability to understand the patch state of an asset and replicate the exact patches deployed in UAT environment to production environment	
13	Ability to download directly from vendor's CDN when endpoint is roaming and cache the patches when connected to internal network to conserve bandwidth	
14	Ability to download the required patches before a scheduled job run begins to optimize the patching maintenance window	
15	Ability to set a recurring job to ensure patches are installed automatically +7 days after Patch Tuesday	
16	Ability to deploy patches that are not listed in the patch catalog	
17	Patch assessment should be done frequently at least 4 hours for up-to-date patch status visibility	
18	Ability to automate patching based on vulnerabilities severity and associated threat risks (e.g., ransomware related vulnerabilities, zero-day vulnerabilities, etc.)	
19	Solution must allow users to shorten the time to remediate from vulnerability discovery to remediation	
20	Patch solutions must be intuitive and easy for IT to learn. It should require only a short learning period for any patch manager to operationalize it.	
21	Ability to automate patch jobs once there is a new update available	
22	Ability to search for patches related to CVEs	
23	Solution must utilize the same agent deployed for VM	
24	Patch identification should be able to be performed without user intervention for automation.	
25	Ability to include a subset of assets for patch management	
26	Ability to translate Microsoft Patch Tuesday into patch jobs	
27	Ability to roll back patches for testing purposes	

D. Professional Services and Training

No.	Specification	Statement of Compliance
1	The winning bidder should have at least 3 product-certified engineers for any of the proposed solution, who must be employed within the service provider.	
2	The winning bidder have at least five (5) international security certifications such as CEH, OSCP, GIAC, CISSP etc. The engineer or analyst is required to submit a Certificate of Employment and CV.	
3	The Service Provider must have at least 10 years of experience in supplying and implementing vulnerability solutions.	
4	The Service Provider must have a Project Management Professional (PMP) certification.	
5	The Service Provider must possess a certificate from the principal/manufacture indicating their authorization as a reseller of the proposed solution.	
6	The Service Provider should be a duly recognized Cybersecurity Assessment Provider, preferably in Vulnerability Assessment and Penetration Testing (VAPT) and Information Security Management System (ISMS), accredited by the Department of Information and Communications Technology.	
7	The Service Provider must conduct Security Awareness Training that shall include a Phishing Simulation and Learning Management System (LMS) that runs on the same platform.	
8	The Service Provider must provide and be able to assign a security awareness proficiency assessment from the console to assess the users' understanding of security awareness. The results will provide a breakdown of strengths and weaknesses to be used to create more targeted campaigns to better suit the needs of users.	
9	The Service Provider must provide and be able to generate a security awareness program with tasks and scheduling by answering answer specific questions as to the breadth and nature of your organization, your goals for the security awareness program, and your timeline.	
10	The Service Provider shall provide daily support, available 8 hours a day, 5 days a week, through phone, email, and onsite assistance during regular business days.	
11	The Service Provider is required to demonstrate the capacity for 8x5 annual support, ensuring a minimum response time of four (4) hours and a restoration time of no more than 12 hours.	
12	The Service Provider is expected to deliver comprehensive training covering setup, configuration, administration, and troubleshooting of the provided solution to ensure that end users acquire the necessary skills to effectively implement, manage, and address issues related to the solution	
13	The Service Provider is required to submit monthly status reports and deliver presentations to provide updates on the progress, activities, and performance related to the engagement.	

14	The Service Provider shall be responsible for the complete lifecycle of the proposed solution, including the installation, deployment, configuration, testing, and implementation processes.	
----	--	--

Section VIII. Checklist of Technical and Financial Documents

Notes on the Checklist of Technical and Financial Documents

The prescribed documents in the checklist are mandatory to be submitted in the Bid, but shall be subject to the following:

- a. GPPB Resolution No. 09-2020 on the efficient procurement measures during a State of Calamity or other similar issuances that shall allow the use of alternate documents in lieu of the mandated requirements; or
- b. Any subsequent GPPB issuances adjusting the documentary requirements after the effectivity of the adoption of the PBDs.

The BAC shall be checking the submitted documents of each Bidder against this checklist to ascertain if they are all present, using a non-discretionary “pass/fail” criterion pursuant to Section 30 of the 2016 revised IRR of RA No. 9184.

Checklist of Technical and Financial Documents

I. TECHNICAL COMPONENT ENVELOPE

Class "A" Documents

Legal Documents

- (a) Valid PhilGEPS Registration Certificate (Platinum Membership) (all pages) **in accordance with Section 8.5.2 of the IRR;**

Technical Documents

- (b) Statement of the prospective bidder of all its ongoing government and private contracts, including contracts awarded but not yet started, if any, whether similar or not similar in nature and complexity to the contract to be bid; **and**
- (c) Statement of the bidder's Single Largest Completed Contract (SLCC) similar to the contract to be bid, except under conditions provided for in Sections 23.4.1.3 and 23.4.2.4 of the 2016 revised IRR of RA No. 9184, within the relevant period as provided in the Bidding Documents; **and**
- (d) Original copy of Bid Security. If in the form of a Surety Bond, submit also a certification issued by the Insurance Commission **or** Original copy of Notarized Bid Securing Declaration; **and**
- (e) Conformity with the Technical Specifications, which may include production/delivery schedule, manpower requirements, and/or after-sales/parts, if applicable; **and**
- (f) Original duly signed Omnibus Sworn Statement (OSS) **and** if applicable, Original Notarized Secretary's Certificate in case of a corporation, partnership, or cooperative; or Original Special Power of Attorney of all members of the joint venture giving full power and authority to its officer to sign the OSS and do acts to represent the Bidder.

Financial Documents

- (g) The prospective bidder's computation of Net Financial Contracting Capacity (NFCC) **or** A committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation.

Class "B" Documents

- (h) If applicable, a duly signed joint venture agreement (JVA) in case the joint venture is already in existence **or** duly notarized statements from all the potential joint venture partners stating that they will enter into and abide by the provisions of the JVA in the instance that the bid is successful.

II. FINANCIAL COMPONENT ENVELOPE

- (i) Original of duly signed and accomplished Financial Bid Form; **and**
- (j) Original of duly signed and accomplished Price Schedule(s).

Other documentary requirements under RA No. 9184 (as applicable)

- (k) *[For foreign bidders claiming by reason of their country's extension of reciprocal rights to Filipinos]* Certification from the relevant government office of their country stating that Filipinos are allowed to participate in government procurement activities for the same item or product.
- (l) Certification from the DTI if the Bidder claims preference as a Domestic Bidder or Domestic Entity.
